

# Hemanth Kovuru

## Full Stack Developer

As a passionate full-stack engineer with over 3 years of hands-on experience, I have developed scalable websites and applications using front-end and back-end skills such as HTML, CSS, JavaScript, Next.js, and Node.js. With a strong knowledge of the MERN stack and experience building web applications, I am eager to enhance my skills and grow as a full-stack developer in the future

## Education

Aug 2014 - Mar 2016

### Intermediate

Sri Chaitanya junior college

Mar 2017 - Oct 2018

### 3D Animation and Visual Effects

Pixels Academy

## Expertise

- HTML
- CSS
- JAVASCRIPT
- NEXT.JS
- NODE.JS
- MONGOOSE

## Language

English

Telugu

Hindi

## Experience

### ○ Apr 2021 - June 2021

E2esolutions

### Web Developer

I completed a 3-month web developer internship, during which I gained valuable experience in both the front-end and back-end aspects of web development and honed my skills in various programming languages and software tools.

### ○ July 2021 - Dec 2021

Applore Techonologies

### Mern Stack Developer

Developed multiple full-stack web applications using the MERN stack, including authentication, API integrations, and database management. Collaborated with cross-functional teams to design, develop, and implement new features and enhancements. Implemented responsive and mobile-first designs using HTML, CSS, and JavaScript frameworks.

### ○ Jan 2022 - Present

Time Space Ventures

### Mern Stack Developer

I leveraged my previous experience to design and develop multiple full-stack web applications, incorporating advanced functionalities such as secure authentication, seamless API integration, and efficient database management. With extensive experience in the MERN stack architecture, I created scalable and high-performance applications. Additionally, I expanded my expertise by learning MetaMask authentication and NFTs data, allowing me to create more secure and decentralized applications for an enhanced user experience.

## Projects
